How to move forward in the future?

Next year, the FemWerkstatt will be 10 years old - time to celebrate what has already happened, to take a critical look at things and, above all, to envision: how can we move on into the next decade? How can a new generation take over? Who is already part of the group and who do we desperately want to be part of it?

In a Future Workshop, we invite everyone who would like to participate in this process: Active members, former members, newcomers and also people who are hearing about it for the first time!

When? 18th June
Time? 10am-4pm
Where? fz*, Faulerstr. 20

Warm invitation to the Future Workshops

What is expecting you?

On 3 days (18.6., 23.7., 5.11., individual dates also possible) we want to spin utopias and tackle concrete issues. A future workshop is often the birth of new initiatives and it is a lot of fun! You don't need any previous knowledge or ideas - everything is created together on the spot!

Sign up now!

All participants will receive a compensation for their efforts and all those who travel from out of town will be reimbursed for their travel costs.

Of course, we will provide catering on all days, that's why we kindly ask you to please register by email to info@femwerkstatt.de.

The project "Next Generation Femwerkstatt 2023*2033"

With the help of the funding programme "Neustart Kultur", we are starting a process for the future of the FemWerkstatt, in which you are invited to participate as an active member, supporter, co-operator, former member or as someone who is interested. Our motto "Next Generation FemWerkstatt 23*33" stands for the goal of initiating changes that will give the organisation a strategy and perspectives for its second decade.

Where do we see and where do we want the FemWerkstatt to be in 2033? What do we have to work on, initiate, implement in 2022 in order to be able to realistically approach these visions of the future in 2023?

Further questions for our future process are also: How do we secure and develop new resources for the FemWerkstatt? How do we maintain and develop intersectional diversity in our structures and public formats?

We look forward to discussing these questions with you!
